Stachurski
Racks for glass and windows

STL 2000x1100x1800

Length	: 2000 mm
Width	: 1100 mm
Height	: 1960 mm
Load-carrying height	: 1800 mm
Load depth	: 895 mm
Load capacity	: 1200 kg

Description: Rack for storing and transporting windows.
Standard rack equipment:
- rubber gaskets,
- footer,
- pockets for transport with a forklift.

Dimensions and finish can be customized upon customer request.

STL 2200x1200x2000

Length	: 2200 mm
Width	: 1200 mm
Height	: 2260 mm
Load-carrying height	: 2000 mm
Load depth	: 985 mm
Load capacity	: 1500 kg:

Description: Rack for storing and transporting windows.
Standard rack equipment:
- rubber gaskets,
- footer,
- pockets for transport with a forklift.

Dimensions and finish can be customized upon customer request.

WA 2200x900x1800

Length	:2200 mm
Width	:900 mm
Height	:2160 mm
Load-carrying height	:1800 mm
Load depth	:260 mm
Load capacity	:1500 kg

Description: Glass trolley used to transport glass panels.

Standard equipment:
- profiles with rubber,
- swivel with brake,
- fixed castor,
- handle.

Stachurski
Racks for glass and windows

Stachurski is a modern enterprise equipped with advanced robots and intelligent machinery, all managed by CAD software. We employ a team of highly skilled and experienced professionals. Our products are well-known worldwide, and we regularly showcase them at international trade fairs, including Glastec, Frontale, and Swissbau.

Production:
- ➤ racks for storage and transport of windows and glass,
- ➤ glass containers,
- ➤ glass waste containers,
- ➤ other light steel constructions.

We also design and manufacture bespoke products for the clients request such as cabinets or storage for chemicals.
Our best quality products, many years of experience in the industry and competitive prices are the key for clients satisfaction.
